WOMEN EQUAL MEN IN DISTANCE TRIALS

One of the most interesting features of water sports in this country has been the development in recent years of a new of long distance swimmer: the man

all courses, is able to hold them for many hours, and thereby accomplishes feats absolutely beyond the ken of the old time plugger.

Capt. Webb and T. W. Burgess, the enly swimmers to have succeeded in making the famous crossing of the English Channel, are popularly regarded as the ling pins in the field of squatic endurance, yet they would be completely outclassed to-day in a test against American paddlers, irrespective of distance.

It is on record, in fact, that after attempting several times to swim the Sandy Hook, in New York Bay, Webb gave it up in despair and pronounced the trip impossible, owing to tidal conditions. Nevertheless, five of our modern stroke devotees have since placed it to their credit—Alfred Brown, Sam Rich-ards, George Meehan, Waiter Dunn and

Most Europeans scout the idea that exponents of up to date strokes, like trudgeon and crawl, will ever make the Channel swim, but let us consider the matter in the light of recent events.

Burgess succeeded in going from Dover to Cape Grisnez in about twenty-two hours, swimming the breast stroke, stopping frequently to rest on his back, and losing much time in partaking of food and drink. He took nourishment every half hour, including champagne, currant jelly, chicken broth, hot chocolate, grapes and a few other delicacies.

It will be obvious to any one that had he swum continuously, without becoming exhausted, he would have cut his time by two or three hours, at the very time by two or three hours, at the very least, and finished in less than twenty

The Associated Specialty Clubs are made up of the following specialty clubs, and the winners will, in most cases, receive four points toward a champion-ship: The Western French Buildog Club, the Western Branch of the Buildog Breeders Association of America, the Chicago Collie Club and the Western Pomeranian Club.

Her efforts have at last met with success, however, for she has purchased a beautiful little dog in Mauldeth Lavender, which is about the best of the breed that is now being shown in this country. Mauldeth Lavender is a beautifully marked little dog with a wonderful head, the proper body and a specimen that in short order will put the prefix champion before its name.

will not be a week which will not see some club in the East giving a show under American Kennel Club rules. There are also signs of new activity in the realm of field trials, and in addition to the annual circuit trials held in many parts of the South and West plans are under way for a series of trials to be held on Long Island during October.

During this period there will be many new champions made, fanciers will bring out youngsters that have been reared during the past spring and summer, and altogether the next few weeks promise to be full of interest to those whose fancying proclivities tend toward the breeding and exhibiting of dogs.

The Atlantic City Kennel Club starts the ball rolling next Friday and Saturday on the Garden Pier, Atlantic City, A good entry has been enrolled and the show will be conducted in elaborate style.
